### YOUR NEIGHBORS SAY IT BEST...

**Ester Fortes** - "I was originally against the project and signed the petition in opposition. As I learned the facts about the gas field and the project, I changed my mind and now strongly support the project. I want them to build it as soon as possible."

**Marsha Kirby** - "After listening to how the project would operate and the safety measures in place I signed my lease. The project is safe and it will provide for improvements in my neighborhood."

**John Hollis** - "I heard all the AGENA claims and was opposed, but as I learned the facts about the project, I eventually become a strong supporter and have signed a lease."

### PROJECT BENEFITS

**SNGS will meet a vital regional need - bringing energy security, the possibility of lower utility bills, and economic benefits (including jobs) - without adverse impacts to the community.**

**SNGS benefits both individual landowners & the Sacramento region**

- Landowners receive a signing bonus and annual lease payments or can negotiate sale of storage rights.
- The region benefits from much-needed supply reserves, which can help lower energy costs.
- Provides critical reserves to mitigate curtailments or "brownouts."

**SNGS provides economic benefits**

- Substantial storage rights income for landowners and the City (for Danny Nunn Park).
- Creating new jobs, both during construction and operation.
- \$60 million SNGS facilities will generate new property, sales and income tax revenues.
- Economic benefits will continue as long as SNGS operates (up to 50 years).

**SNGS is a local partnership working closely with community, businesses, and regulators**

- Educating and involving local community, working closely with neighborhood leaders and business groups
- Providing annual funding for the Community/Neighborhood Foundation.
- Working with City/County/State officials and coordinating closely with regulators and utilities.
- SNGS development and operation will be strictly regulated and monitored by the CPUC.

SNGS is a local, community-oriented enterprise; partners Jim Fossum, Don Russell, and Derek and Vern Jones, along with General Counsel Jack Diepenbrock, are recognized in the Sacramento community and are all actively involved in civic affairs.

**The Community/Neighborhood Foundation - Our Neighborhood Partnership**

In an effort to support the local community, SNGS is excited to help fund Our Neighborhood Partnership, a Community Foundation designed to support local projects and activities favored by the community.

## PROJECT BENEFITS

The Foundation is securing its 501(c) 3 non-profit status, and will receive \$25,000 during the initial project start-up phase, an amount committed by SNGS, in addition to receiving 0.25 percent (.25%) of annual gross revenues when full operation of the SNGS facility is achieved. This could yield approximately \$25,000 to \$44,000 or more per year.

Our Neighborhood Partnership is governed by a Board of Directors led by 23 members of the community. While Our Neighborhood Partnership continues to explore ways to invest \$44,000 or more per year into the neighborhood, they seek input beyond their own. This is your opportunity to help improve the quality of life for you and your neighbors by sharing ideas on ways to invest in your community.

- Sponsoring sports leagues for youth
- Traffic calming measures
- Scholarships for neighborhood high school students
- Park improvements
- Neighborhood security measures

SNGS has already disbursed more than \$17,000 in 2008 to several community organizations, and local groups and events—including \$2,500 to the Inter Soccer Club, a non-profit organization providing an alternative for families that cannot afford \$150 per child per month to play soccer at the highest competitive level. For more information about the Inter Soccer Club, visit:

[www.intersoccerclubsacramento.org](http://www.intersoccerclubsacramento.org)

For more information or those wishing to participate, call Tom Burruss at: (916) 392-0154.

*"The goal is to fund programs and projects that will benefit the storage field residents and neighborhood"* said Don Russell, President of SNGS.

**NEWSLETTER**  
 October 2008

**Message from the President, Luis Wu**

It is my pleasure to welcome you to the first issue of the newsletter. The newsletter is a great way to stay up to date on all the exciting news and projects that will benefit the neighborhood. It is a community resource to help you get involved in the neighborhood and provide the information you need to get involved. The newsletter is a great way to stay up to date on all the exciting news and projects that will benefit the neighborhood. It is a community resource to help you get involved in the neighborhood and provide the information you need to get involved.

**What is Our Neighborhood Partnership?**

Our Neighborhood Partnership is a 501(c)(3) non-profit organization that was created to provide a voice for the neighborhood and to provide the information you need to get involved. The newsletter is a great way to stay up to date on all the exciting news and projects that will benefit the neighborhood. It is a community resource to help you get involved in the neighborhood and provide the information you need to get involved.

**Funding programs could include:**

- Youth Soccer Program
- Neighborhood Beautification
- Neighborhood Association Grant Support
- Traffic Calming
- Solar Streetlights for Danny Nunn Park
- Neighborhood Security
- Science Programs for Schools (e.g., Alternative Energy Resources)
- Support for the existing Project or Organization
- Block Parties
- Neighborhood Events
- Sidewalk Repairs
- Enhanced Park Amenities (benches, BBQ, parking, bathrooms, etc.)
- Neighborhood Safety Programs
